# **SANFORIZED-SHRUNK**

## **WHAT IT MEANS**

Sanforizing takes the STRETCH out of cotton and linen fabrics . . . so that there is nothing left to shrink (within  $\frac{3}{4}$  of one percent).

Sanforizing is the only process that shrinks exactly and precisely . . . to make possible permanent fit under all conditions.

The first step in Sanforizing is to determine exactly and mathematically the actual shrinkage of every fabric. This is done by taking a sample of the fabric—measuring it, washing it under specified controlled conditions. A comparison before and after indicates the exact shrinkage.

The degree of shrinkage having been determined, the Sanforizing machine is set accordingly. If it is desired to shrink a fabric 2 inches to the yard, gears are thrown into mesh, which cause the machine to deliver 34 inches of material at the delivery end, for each 36 inches fed into the intake end.

The fabric is brought to the machine in a roll—and is smoothed out to eliminate wrinkles. Then, the fabric is carried through the water sprays and steam dampner to the clip expander—which regulates the width of the fabric and conducts it to the modified Palmer machine.

As it passes through this machine, the action of the machinery itself combined with its control of length and width of the fabric shrinks the cloth to the desired length and width shown by the tested sample in the first step.

An auxiliary Sanforizing finisher then gives the same smooth finish to both sides of the fabric which is now completely shrunk.

Entirely mechanical in operation, Sanforizing employs no chemicals whatever, but uses only pure water spray, live steam and heat.

**YOU CAN ORDER G.W.G. GARMENTS EITHER WAY:**

**"UNSHRUNK"**

**OR**

**"SANFORIZED-SHRUNK"**

**IT'S MARKED ON EVERY G.W.G. LABEL**

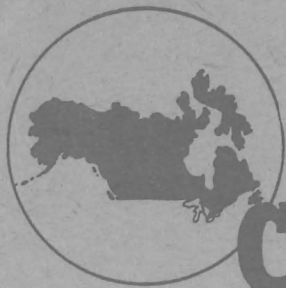

**REMEMBER . . . .**

*If the garment you purchase is NOT labelled "SANFORIZED-SHRUNK", the material may shrink in washing . . . and you cannot obtain a refund from your dealer, or the manufacturer.*

# CAPRICORN

**DECEMBER 23 TO JANUARY 20**

By nature you are cautious and conservative, and so appear cold and indifferent although the reverse is true. You are a born worker, ambitious, a good reasoner, and love to be busy. You are capable of reaching great heights for you can build, while others are thinking about it. You are the last person to admit you have been defeated and have a great ability to triumph over circumstances. You are a good judge of character and your nature expands with the realization of personal recognition and achievement.

You will rise in life through your own efforts and acquire wealth by patient steady industry. You should strive to build your own business, for you are at your best when you have responsibility. You must not allow yourself to feel that fate is against you for your ability will bring you out on top. Education and cultural hobbies will help to develop a more broadminded attitude, which will help you accomplish greater things.

You enjoy your home and domestic surroundings. You are not outwardly demonstrative, for your natural restraint causes you to refrain from a display of feelings. There is one very important romance indicated for you . . . and once your affections are given you are devoted, loving and congenial. Your most suitable mate is to be found amongst those born in Taurus, Virgo, Libra or Pisces. You may find it rather difficult to adjust yourself to another's nature, and thus you are liable to marry rather late in life. You should try to develop a warm responding personality, for you have the promise of much happiness if you do.

Your health is apt to be a matter of concern from time to time, but much of your weakness arises from despondency. The countering medicine is cheerful surroundings, and a definite effort to stimulate optimism. You will be wise to develop relaxing hobbies. Always be on guard against colds.

This year can be very successful, from a financial standpoint, for there is a great opportunity for you indicated, with more responsibility. You will gain much from this, if you strive to keep from growing autocratic and becoming deaf to suggestion or intolerant of criticism. Remember that you have the power to conquer obstacles if you but develop the great gifts given you at birth. Slow down a little in the latter part of the year or your health may be impaired. Your social life promises to be very active, with new friends indicated. You will enjoy this social life far more if you try to be tolerant and understanding with your acquaintances, refusing to intensify small slights or inconveniences.

COVERALLS, SANFORIZED-SHRUNK, AND IN SIZES THREE  
TO EIGHT YEARS.

No fixed laws can be laid down as to the truth of omens. It is said that people can cause trouble to happen by believing in omens . . . and can keep hope fresh by carrying charms. Many who scoff at superstition secretly believe in pet omens . . . and here are some that have been handed down through the generations:

### ANTS

Should these insects over-run a place where they have never been before, prosperous times will follow, for they are an omen of industry.

### BEEES

Weather-wise. They hover near the hive, and do not venture far away when storms are at hand.

### BIRDS

COCKS . . . coming to meet you . . . indicates visitors.

CROWS . . . croaking near a person—evil omens.

MAGPIE . . . news of company coming.

SPARROWS . . . fortunate to lovers.

### BIRTHDAYS

Monday's child is fair of face,  
 Tuesday's child is full of grace,  
 Wednesday's child is full of woe,  
 Thursday's child has far to go,  
 Friday's child is loving and giving,  
 Saturday's child must work for its living:  
 But the child that is born on the Sabbath Day  
 Is handsome and wise and good and gay.

### CANDLE

A spark on the wick of a candle indicates a letter coming to the one who sees it first.

## CHARMS AND OMENS—CONTINUED

### CATS

Should a Cat cross the road in front of you, turn back and postpone your journey. Should a black cat come to meet you from the right-hand side, you are sure to succeed.

### DOG

To meet a dog first thing on setting out, indicates good fortune coming to you through a friend.

### EARS

If your ears tingle, it is a sign that you are being talked about.

### FRUIT STONES

Think of a wish . . . then count the stones or pips. If the number is even, the omen is a good one. If the number is odd, the reverse.

### HAY

To pass a cart loaded with hay portends good fortune.

### HORSEHOE

To find one is considered a lucky omen. It should be nailed to the front door—right way up, the ends at the top, to hold in the luck.

### MARRIAGE

A maid should not wear colors . . . a widow, never white. Happy omens for brides are sunshine and a cat sneezing.

### NEW MOON

On a Monday signifies good luck and good weather. The new moon, seen for the first time over the right shoulder offers the chance for a wish to come true—but not, if seen through glass.

### OXEN

Especially good signs if seen by people born in the months of April and May.

### PIGS

To see a sow coming towards you is good . . . but, if she turns away, the luck flies.

### SALT

Spilled, means a quarrel or ill luck. This may be avoided by throwing a pinch over the left shoulder.

### SHOES

The right shoe is the best one to put on first.

### STARS

If you wish on a shooting star, your wish will come true.

### SPIDER

It is considered unlucky to kill a spider.

### TRIP

To trip over a mat or going upstairs indicates an approaching wedding.

# Spring Cleaning

For stubborn particles of dirt that settle in moldings, cracks and other corners . . . use a paint brush that has been dipped into thick suds.

Boil a couple of onions in a pint of water, and use this water to remove dirt from white paint.

Never wash piano keys with water. Use a soft cloth dipped in alcohol.

Because dirt seeps through grass and fibre rugs, use newspaper under them as padding. On cleaning day, the newspapers will have caught the dirt—and can simply be thrown away.

To give a wax-like finish to linoleum, add to the scrubbing water a starch solution (mixed with cold water). Besides giving a fine finish, this will help to keep linoleum clean longer.

For cleaning and polishing brass ash trays, a mixture of salt and ammonia works wonders.

Buttermilk may be used to clean copper, brass and bronze. Wash thoroughly in water afterwards—and polish, using a little dry whiting if necessary.

To clean fireplace brickwork . . . use steel wool and a scouring powder. Rinse off thoroughly.

To clean parchment shades, first brush off all dust. Wipe the shade, inside and out, with a damp cloth wrung out of sudsy water. Wipe with a clean, damp cloth.

## G.W.G. PLAY OVERALLS

RUGGED GARMENTS FOR CHILDREN FROM TWO TO  
EIGHT YEARS

## SPRING CLEANING—CONTINUED

Furniture should be looked after regularly. The most efficient, effective way to keep your furniture, is by dusting and polishing it regularly. In dusting, dust quickly with a clean cloth. If there is dirt on the upholstery or frame, use warm soapy water, rubbing the furniture well and then drying with a clean cloth. Polish, whether it is liquid or solid should be put on evenly and let dry. Then polished firmly and quickly with a dry cloth. Wet glasses leave white rings on table. In this case take a blotter and place over the ring. Next take a warm iron and press firmly down on the blotter. If rings persist, apply camphorated oil or a blemish remover.

Your carpets should be swept every day and the vacuum cleaner run over them once a week. The rugs should be sent to a Cleaner once a year. To prevent wearing of your rug in one place, change it around. Linoleum washes easily, but be sure not to use too much water, to prevent the edges warping. A little polish adds to its looks.

Your floor should be mopped over every day. Waxing the floors should be done twice a year at least. This preserves the wood. In case of grease, dirt or other stains on the floor, turpentine is a good cleaner, but care must be taken as this is highly inflammable. Before floor is waxed, clean thoroughly either by scrubbing or vacuum.

Walls are noticeable if not cleaned properly. Wipe down the dust with a clean dry rag frequently. The wood work is washed but not scrubbed, just rubbed well with warm soapy water. Painted walls are cleaned with warm soapy water. Be sure and not use much water. On wallpaper, one may use a damp rag, but be careful not to rub too hard. Childrens' hand marks are taken off the wall and wood work with a soapy cloth, rubbed, (not too heavily) over the mark. Then with a dry cloth wipe off the soap.

Take care of your silver . . . wash in warm soapy water . . . dry thoroughly . . . apply silver polish and then use a little of that old fashioned ELBOW GREASE. Then back into warm water with the silver wear so as not to leave a "silver taste" the next time you are using them. Keep your silver ware away from eggs, matches, salt, fruit juices, rubber and gas. These will tarnish them. Don't be alarmed when you see scratches on your silver. Polish off the worst ones: the fine ones add up to "butler's finish" after years of use.

# AQUARIUS

**JANUARY 21 TO FEBRUARY 19**

You are idealistic and original . . . apt to be over-sensitive and easily overwrought. You are strong-willed and often feel alone in life, hence your desire for gaiety and crowds. You live mentally rather than physically, for things in the mental world appeal to you and you are capable of dealing with facts. You are apt to have one goal in life and put all your thoughts and energy into it. This characteristic is splendid, if you don't give this ideal so much importance that you neglect the everyday things in life. Your most prominent fault is a lack of hope, when things are going wrong for you.

Aquarius persons loom large in the list of people who have been unusually successful in life. You have an inventive turn of mind. You are enthusiastic about reform and new methods, and you succeed best where your idealism and expressiveness have full sway. You must drop that inferiority complex of yours, if you wish to make better progress, and come right out with your ideas. You are capable of doing things well, and you should let others know this.

Revolutionary and independent as you are, your home and family life mean very much to you. You are apt to be stronger than others—so don't be surprised if they lean on you. If you like a person at first meeting your friendly disposition is immediately evident, but if you don't you are apt to be snobbish or indifferent. This will cause you trouble, and you must try to develop your friendly qualities for you will need the co-operation of others. Your love and heart interests are taken very seriously, but you must be careful not to listen to any hearsay concerning your loved ones, for it may lead to trouble. Your most suitable marriage partner is likely to be found under the signs of Sagittarius, Leo and Aries.

You have a good constitution, but you should take care of yourself. Because you have more mental vitality than physical, you should get plenty of fresh air and exercise. Be on guard to catch things in time and correct any health faults that will lead to illness, for you are apt to be careless and overtax yourself, with work and extreme nervous tension.

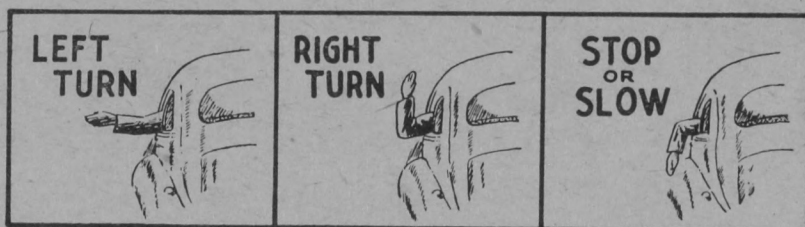

1946 promises to be a big year for you . . . one in which you will work hard, especially during the first part of the year. Your self-expressive urges will be stimulated. The year may not sail along as smoothly as you might wish, and you must not allow anything to weigh too heavily on your mind. Dogged persistence will bring you through to a much better finish than you anticipated. Analyze each financial investment carefully and obtain the advice of someone you can trust. Romance is strongly affirmed this year.

**G.W.G. COMBINATION OVERALLS**

**EASY ON . . . EASY OFF**

# HINTS ON CAREFUL DRIVING

- **KEEP TO THE RIGHT**
- **SAFETY FIRST**
- **DRIVE CAREFULLY**

Always anticipate danger.

Do not imagine that people—especially children—or animals can always be trusted to do the sensible thing.

Be prepared for anyone else on the road doing the wrong thing .

Beware of pedestrians stepping suddenly off the footway or curb, emerging suddenly from behind or from in front of other moving or stationary vehicles.

Do not drive fast past schools or in school zones or populous districts.

Beware of vehicles suddenly turning out of their line of traffic.

Never turn into or out of any road, or cross any important road except dead slow (that is, so that you can pull up at once) unless you can see that all is clear.

# YOU MUST

Keep to the right when meeting other vehicles.

Not drive a motor vehicle whilst under the influence of liquor, nor in a reckless manner.

Never obstruct the highway, nor wilfully hinder passage of other traffic.

Give audible warning of approach whenever necessary.

Stop on signal or request of constable in uniform or person in charge of traffic.

Secure car against being started, if left unattended.

Carry your driver's license when driving. Produce it to constable on demand. Never lend it to anyone else.

See that your vehicle carries correct registration marks, properly visible.

Carry proper lights during hours of darkness.

Know speed limits.

Stop in event of accident and give name and address of driver, and owner on demand, and in the case of an accident causing any injury to person or property, report the accident as soon as possible to a police officer.

See that the brakes, steering wheel and lights are in good condition.

Use your horn with discretion. Remember your horn is a warning, not a command. You have only equal rights on the road with every other class of user.

### WOMEN'S G.W.G. SLACKS

OF DENIM OR DRILL . . . COMFORTABLE AND GOOD-LOOKING  
. . . TO WEAR EVERY DAY.

ANCHOR—Assurance in love, of riches, with soon a happy end to all sorrow.

APPLE—To dream of apples tells you that your loved one will prove to you true and constant.

ATTIC—To dream you are up in an attic portends some small sickness, but followed by health.

AUGUST—Any dream first morning or night in August will have its immediate fulfilment.

BALL—To dream you dance at a ball, brings good luck. Those you dance with will try to gain your affections. To play at any game of ball and win, you will marry the girl of your choice, but to lose, disappointment.

BASEBALL—To play baseball and win foretells marriage with the girl you love; to lose, foretells disappointment.

BEAR—To see a bear in your dream, play the short side of your favorite grain or stocks.

BELL—To hear a bell ring gives promise of joy and gladness, or happy reunion of relatives and friends.

BOAT—A row boat, love or courtship; a sail boat, marriage. If wind is high or sea tempestuous, discord; if the boat capsizes, but not to drown, divorce.

BOOK—Be ready for an immediate change in your business, and for the best. A hint also, to study more the laws of social etiquette and the art of making home happy.

## **DREAMS—CONTINUED**

**BROOM**—To a lady, fear not the constancy of your present admirer. He admires you more for your accomplishments than for your beauty. He is truly your sincere and affectionate friend.

**CAKE**—To see a cake without eating it, a gentle hint of his or her affectionate solicitude for you, and mental worry over your absence. To eat cake, promises highest mental satisfaction between two lovers. A wedding cake is a promise of declaration of love.

**CAMERA**—A great religious revival or political revolution at hand, which like a great wave will sweep over the land.

**CAR**—To dream of riding in a car or coach, gives promise of personal ease and comfort, also that your future life lines will have the widest range from grave to gay, from lively to severe.

**CHAIN**—Iron chain, bondage or embarrassment; gold chain, honor, wealth or future grandeur.

**CHICKEN**—Good luck, and a hint to invest some money in poultry or eggs, as they are about to become scarce.

**CHURN**—Persevere in your ideas of right and you will yet find the philosopher's stone, which will turn everything in your hand to pure gold.

**CURRENTS**—White currents, love or marriage; black currents, grief; red currents, a rival for love or business.

WELL—To dream of a well and with water, gives promise of happy health; but without water, failing health.

WHISTLE—Gives prediction of a fire or storm in about a week.

In no way should First Aid be looked upon as a substitute for a doctor's care. Yet, while waiting for his arrival, certain precautions may be observed.

## **BURNS**

If skin is reddened, but unbroken. Spread a burn ointment over the affected area . . . or a paste of baking soda and water, to shut out air and ease pain. Cover with sterile gauze.

When skin is blistered and broken. Doctor should be sent for at once. Cover area with gauze moistened with a baking soda solution, made with water which has been **boiled**.

## **WOUNDS**

After the wound has bled slightly, clean around it, without touching the wound itself, with soap or benzine.

Apply a mild antiseptic. When this has dried, place a sterile dressing over the wound—holding it in place with adhesive. Never touch the wound, or the side of the bandage that goes next to the wound. Never apply adhesive plaster directly to a wound.

Never bandage the wound tightly, unless necessary to stop bleeding.

## **INSECT STINGS**

Apply ammonia, where the sting entered, followed by cold water and ice.

Wet mosquito stings with a mild salt solution . . . then cover with baking soda and bandage, if the stings show any inflammation. Particularly important with small children who might scratch them.

## **BRUISES**

To treat . . . first apply cloths wrung out in cold water, or hold the injured part under running cold water. Follow this with hot water applications, lasting for half an hour, three times a day.

## **SPRAIN**

For relief, apply water as cold as can be borne. Then, bandage firmly and elevate the affected part. Rest is imperative.

## **FOREIGN BODY**

In the eye . . . never rub. Keep the eye lightly closed. Tears will often wash out the foreign substance. Blow the nostril on the same side as the affected eye, keeping the other eye closed. Wash the eye, using a medicine dropper. If necessary, remove the substance from the eye with a sterile cloth. Whether or not you succeed, put into the eye a drop of sweet or castor oil. If the pain persists . . . see a doctor. Do not try to carry first aid too far.

# PISCES

FEBRUARY 20 TO MARCH 21

You have a patient, tolerant, broad-minded nature . . . kind in judgment and dealings with others . . . and rarely bear malice or animosity. Although you are easy-going, and placid in the main, you CAN be very stubborn when occasion demands. You are extremely sociable, with great tact, and seldom meddle in the affairs of others. You might be termed one of the "peace-makers" of the world, for you dislike quarrelling and strife. You also dislike leaving things in an unfinished state, and having set out to accomplish something, you insist on its entire completion, and are apt at ending works which others have left unfinished. You possess excellent understanding, and your feelings are easily aroused towards those who are suffering.

You succeed best in employment that requires sympathetic judgment. You are fond of unusual occupations. for you have a vivid imagination and are artistic in either a creative or an appreciative way. Money seems to come easily to you for your keen intellectual perception will carry you far, if you can just strive to overcome your tendency to be self-conscious. Don't be too hasty, or undertake too many things at a time, and give deep consideration to new projects.

Your sociable nature will bring you many romances, but these are apt to be of short duration until you find the person you really love. You will be happiest when partnered with someone born in Scorpio, Cancer or Taurus. Because of your love of travel and change, you would be wise to get this out of your system before you settle down. You will make a splendid marriage partner for there is nothing you wouldn't do for the person you love. Apply your intelligence and charm to build the life of which you dream and you can make your dreams come true.

Your mind and body are delicately balanced and your health should never be strained. Anxiety and worry can impair your general health and you must seek to avoid this. Your extreme generosity is often the cause of neglecting your own health, for you are too inclined to be sympathetic. Follow a preventive line of action in all health matters and you can avoid this weakness.

Indications point to a good year, with gains for you, particularly in the late spring or early fall. Use your delicately attuned nature to overcome obstacles, rather than allow restrictions to discourage you. Have more confidence in yourself and put your best foot forward for this year will be outstanding from a mental and educational standpoint. Turn to the social side of life and to wider spheres of personal activity and life will be much pleasanter for you. You may have some decided changes ahead, and you must start fresh and build anew.

### To Find the Number of Tons of Hay in a Mow

Multiply the length by the width by the height (all in feet) and divide by 400 to 500, depending on the kind of hay and how long it has been in the mow.

### To Find the Number of Tons of Hay in a Stack

Multiply the overthrow (the distance from the ground on one side over the top of the stack to the ground on the other side) by the length, by the width (all in feet); multiply by 3; divide by ten and then divide by 500 to 600, depending upon the length of time the hay has been in the stack.

## To Find Number Board Feet in a Log

Subtract 4 inches from the diameter and square the remainder. The result will be the number of board feet in a 16-foot log. Add  $\frac{1}{8}$  for 18-foot log,  $\frac{1}{4}$  for 20-foot logs. Subtract  $\frac{1}{8}$  for 14-foot logs,  $\frac{1}{4}$  for 12-foot logs.

To find the contents of boards, in square feet. Rule — Multiply the length (in feet) by the width (in inches) and divide the product by 12.

Example—Find the contents of a 16-foot board, 9 inches wide.

$$9 \times 16 = 144 \div 12 = 12 \text{ square feet.}$$

To find the contents of scantlings, joists, etc., in square feet. Rule—Multiply the length, thickness and width together, and divide the product by 12.

Example—Find contents of an 18-foot joist, 2 x 8.

$$2 \times 8 \times 18 = 288 \div 12 = 24 \text{ square ft.}$$

## To Find the Contents of Square Tanks in Gallons

Rule—Multiply the area of the bottom by the height in order to secure the cubic feet. Multiply the cubic feet by  $6\frac{1}{4}$  and the result will be the number of gallons.

## Commodity Weights and Measures

A pint's a pound and a quarter of the following: Water, wheat, butter, sugar, blackberries.

A gallon of milk weighs 10.32 pounds; cream, 10 pounds; 38.7 quarts of milk weigh 100 pounds.

A keg of nails weighs 100 pounds. A barrel of flour weighs 196 pounds; of salt, 280 pounds; of beef, fish, or pork, 200 pounds; cement (4 bags) 350 pounds.

A barrel of cement contains 3.5 cubic feet; of oil, 35 gallons.

A barrel of dry commodities contains 7,056 cubic inches, or 105 dry quarts.

A Winchester bushel leveled contains 2,150.42 cubic inches. (Used to measure apples, potatoes, shelled corn in bin). An Imperial bushel contains 2218.192 cubic inches.

An acre contains 4,840 square yards, or 43,560 square ft. A square acre measures 208.71 feet on each side.

A board foot equals 144 cubic inches; a cord contains 128 cubic feet.

## Weights and Volumes of Water

One cubic inch of water weighs .03617 pounds. One cubic foot weighs 62.5 pounds.

One cubic foot equals 6.25 gallons. One pint (liquid) weighs 1.25 pounds. One gallon weighs 10 pounds. One gallon equals 277.274 cubic inches. One liquid quart equals 69.31 cubic inches.

## To Find the Bushels of Grain or Shelled Corn in a Bin or Wagon Box

Multiply the number of cubic feet by .8.

## To Find the Contents of Barrels and Casks in Gallons

Rule—Multiply the square of the mean diameter in inches by the depth in inches and the product by .0034.

# POULTRY

## PULLETS

Colony houses or range shelters should be portable, and should be moved frequently. This improves sanitation and provides for more efficient use of pasture.

Clean the house, feed troughs and water containers regularly.

Contaminated ground is dangerous. Land on which growing birds are ranged should have been cultivated the previous year—and should have had no poultry on it for two years.

Grasses are better when short and green, and not stemmy. Keep range or clover trimmed. The chickens will eat heavily, and save you money on feed.

Growing birds need plenty of shade during hot weather.

## LAYING HENS

Keep oyster shell and grit in a small container before the hens. This is required to form hard egg shells, and to help grind and digest whole grains.

Add fresh laying mash every other day. Hens do not like stale feed. Make sure your hens have fresh clean water.

Keep watering pails, troughs and hoppers clean. Cleanliness is your best assurance of a healthy flock.

Dampness in the straw litter brings on colds and cuts down egg production. Clean out straw . . . and replace with fresh, dry straw.

Be sure your birds go to roost with a full crop of scratch grains during cold weather.

## CHICKS

No feed for first twenty-four hours.

Feed recommended starter for first four weeks.

Gradually provide scratch grain . . . made of following proportion:

200 pounds cracked wheat

100 pounds cracked corn or barley

100 pounds oatmeal.

At eight weeks, gradually change to a developing mash. Pullets are best kept in a range shelter, moved on new ground each year to avoid coccidiocis.

Provide plenty of hopper space to avoid overcrowding.

Control temperature with thermometer at one inch above floor level—at about 85 degrees F.

Clean and disinfect brooder house every five days—necessary, to break life cycle of dangerous parasites.

Provide low perches at five weeks of age.

Reduce temperature, as chicks become feathered—gradually—until no heat required.

From time birds are eight weeks of age until production, use following developing scratch:

200 pounds whole wheat

200 pounds whole oats

100 pounds whole barley.

Supplement with concentrate or home-made mixture that contains necessary vitamins, proteins and minerals to ensure steady laying.

# HOUSEHOLD HINTS

For spot and stain cleaning . . . keep a pair of embroidery hoops on hand—to keep material taut.

After ribbons have been cleaned, roll them smoothly around a bottle to dry.

Grass stains should be sponged with mild ammonia-water solution before being washed.

Remove ink spots on your hands, by rubbing the spot with the well-moistened head of a match.

If you find it hard on your eyes to darn at night, try using a lighted flashlight as darning egg.

The odor of fresh paint can be removed from a room by slicing an onion into a basin of water—and leaving it in the room.

Put a drop or two of glycerine in the soapy water, next time the children blow bubbles. Gives color, and makes bubbles last longer.

After eating blueberry pie, bite into a small piece of lemon . . . to remove stain from lips and teeth.

If you have stale sponge cake on hand; slice, toast and butter it for afternoon tea—it's delicious.

**WHEN COOKING EGGS** in the shell do not cook them in boiling water. This tends to make them tough and unevenly cooked. Instead, place eggs in a sauce pan, cover with cold water and heat slowly to boiling. For soft-cooked eggs—remove when water starts to boil. For hard-cooked eggs—reduce heat and simmer 5 to 8 minutes.

**TO HOLD EGGS TOGETHER WHILE POACHING** add a few drops of vinegar or lemon juice to the cooking water.

**TO PREVENT MERINGUE ON PIES FROM SHRINKING** spread meringue on filling so that it touches the sides of pastry all around the edge.

**TO SAVE TIME** prepare a quantity of white sauce at one time, pour into a quart jar, and store in refrigerator and use as needed.

**TO AVOID UNPLEASANT ODORS WHILE COOKING FISH** cover with browned butter or lemon juice.

# Beauty

## DO **N**'T . . .

Leave powder to gray your eyebrows.  
Wash your hair, but not your brush and comb.  
Wear a skirt with a sagging hemline.  
Spoil a neat hairdo with a crooked part.  
Tolerate powder smears on collars of dark clothes.  
Look spotty with dark powder over light foundation.  
Shop for glamor make-up in your oldest clothes.

## DO . . . . .

Keep in the pink. Your eyes shine and you're twice as capable when you brim with health. And since no make-up can counterfeit that alive-and-clicking look, you should exercise, diet, do anything to keep it.

Stick to a good grooming system . . . bathing, creaming, brushing, fingertip fixing, right on schedule—never skipped, never skimped. System saves time—and you.

Have the elements of beauty. It all adds up to clean skin, glinting smooth hair, a buoyant carriage and an air of perfect freshness—the foundation of good looks.

Acquire know-how. Small skills in rolling your own curls, manicuring your own nails, making up smoothly will save your beauty budget and help in an emergency.

Be fashion-minded. When you make an intelligent change in yourself you give yourself sparkle and spice.

Broaden your interests. Keep your mind as alert as your looks. Don't let your leisure activities slip into an ever-narrowing rut.

## DATE DATA . . .

Even if his stories bore you,  
Listen well, and he'll adore you  
If you wish to keep him dating  
Never, never keep him waiting.  
Remember that men admire  
Spotless, feminine attire.  
Girls who hope for wedding bands  
Ought to have soft, pretty hands.

Publicly displayed affection  
May result in your rejection.  
Girls who shouldn't drink (and do)  
Find their escorts very few.  
Smeary makeup, stringy hair  
Will not help to make him care.  
Words of solid wisdom these—  
Keep him cool, but do not freeze!

# ARIES

MARCH 22 TO APRIL 20

Action is the keynote of your nature. You have a great zest for living, and although life will be full of ups and downs for you, it will never be dull. You are a natural trail blazer, full of enterprise and impulsive, with great mental energy, and you would be wise to direct this great energy in a controlled manner. Although fiery and quick tempered you are quick to forgive, and very loyal to your many friends. Your executive ability is good, and you are very independent, with a great dislike for interference. When your plans are interfered with you are apt to lose interest in them and abandon them altogether. You are at your best when inspired by new ideas or new interests and your natural ability to take the lead in promoting new ideas is your paramount characteristic. Aries people are pioneers of thought and action.

Your true place is in the centre of big activities of a mental or productive nature. You can be successful in many occupations because of your originality and self-confidence. Your ability to fight for what you want and your perseverance are the high points of your character, but you must not let your impatience and excess of energy retard you. Money is likely to come easily to you, but because of your generosity and speculative nature you are not apt to be very wealthy.

You are rarely dull or uninteresting and possess a magnetic personality. Your nature is affectionate, and family life is necessary to you, but your natural impatience is apt to disrupt the peace and harmony of your home unless you control your moods. You are inclined to lead a merry chase in love affairs, but once captured you will remain faithful and your best marriage partners are born under the signs of Leo, Sagittarius, Gemini and Aquarius. Curb your quick temper and jealousy. Once a romance is broken, you are not likely to turn back to past affections. Purposeless social contacts bore you, and your best lines to pursue are activities in which you can build and develop. Life will be much happier for you when you learn to give and take.

You have a strong constitution and all you need, to enjoy perfect health, is to take care that you don't burn the candle at both ends. You are inclined to fall quickly in line with health fads . . . but by living in peaceful surroundings, and curbing your tendency to high living, you have no need to worry about your health.

You are coming into a year of greater opportunity and scope, with more recognition for effort. You will find unusual tasks confronting you, which call for keen judgment and consistent effort. There is a strong inclination towards travel this year. Your creative talents will receive a stirring toward the end of the year, and by using every spark of genius you have, something really worthwhile will be accomplished. Maintain happy relations with those closely attached to you, and you can avoid upsets with loved ones. A deeper understanding will attract lasting happiness for you.

She who from April dates her years,  
 Diamonds shall wear, lest bitter tears,  
 For vain repentance flow: this stone,  
 Emblem of innocence is known.

Birthstone ..... Diamond

### GEM OF RECONCILIATION

Long chosen as the gem for the engagement ring. It is the most brilliant of gems . . . the hardest of known substances. Believed to promote harmony between man and woman.

# Poet's Corner

## THE BEDIZENED DAMOSEL

Smarter girls may cry for pearls  
And crave tiaras for their curls  
And shed a tear into their beer  
For diamond bracelets up to here.  
Oh, opal rings and triple strings  
Of emeralds are lovely things;  
But give me a chunk, a great big hunk  
Of jewelry that is frankly junk.

No millionaire's pursuing me  
With guerdons of affection;  
No maharajah's wooing me  
With gems from his collection;  
Yet I don't fret and grow upset  
And chew my nails off in a pet  
As long as I can satisfy  
My yen for stuff a buck will buy.

—By Ethel Jacobson.

## THE TANSIENT CHILD

Beneath the pink all little daughters  
wear  
She would have moved, mist-soft,  
slipping our hands;  
Her thoughts, stirring their strange  
uncatchable strands,  
Put drifts of edge-and-tremble at her  
hair.  
And when we sat, her face against my  
breast,  
I knew her transience; she was still  
a part  
Of the moon and leaves that stirred  
the window space,  
Covering her with half-remembered  
lace.

—By Bernice Bunn Christman.

## WATER AND EARTH

They liked the painted toys we brought,  
Novel, bright, electric-wired;  
They watched them overjoyed we thought;  
But in an hour they all retired,  
Running like water down the bank,  
Barefoot, noisy, as though inspired  
By some wild god beneath the rank  
New growth of feathered royal fern.  
They knelt upon the ground and sank  
Their wriggling fingers deep to learn  
Of ant and beetle and to feel  
The earth, more loved on each return.  
Stamped and shaped with palm and heel,  
A dam was built of mud and stone,  
And hours were spent on a water wheel.  
Water and earth! Their blood and bone  
Being of these so lately wrought,  
They love them still as their very own.

—Joy Hausmann.

### COLLEGE TIME

If you have watched her tender years of growing,  
As candles multiplied upon the cake;  
If you have trimmed the tree, and named the kitten,  
And curbed your own desires for her sake;  
  
If you have read from "Alice" during measles  
And "Little Women" when she had the mumps;  
If you have suffered through her first recital,  
Your heart one mass of palpitating thumps;  
  
If you have prayed through many long night watches,  
And braided your own dreams within her hair;  
If you have waited for the first Date's leaving  
Until you heard her footstep on the stair;  
  
If you have shared her innocent confessions,  
The fun, the jokes, the laughter, and the song;  
If you have mingled gentleness with warning  
In pointing out the right way and the wrong;  
  
Then, mother, rest your heart and hands together;  
Drop now, at last, the old anxiety;  
Your work is finished. Magic spaces beckon!  
Open the cage and let the bird fly free!

—*Agnes Sligh Turnbull.*

### BRIDE'S HOUSE

Now in my hand I hold the shining key That will unlock the freshly painted door. Yet hesitant, with strange humility I pause upon the new-laid walk before Gay shingled roof and casement windows bright With welcome—thinking how untried and young We are, this house and I, and on how slight	A thread life's greatest happiness is hung. We are unseasoned yet in any weather, Though few escape storm's bitter reckoning; O little house, let us be strong together, Withstanding winter, certain of the spring, Sheltering love so wisely and so well: Both heart and home are where he most would dwell.

—*Kathleen Sutton.*

One would be in less danger  
From the wiles of the stranger  
If one's own kin and kith  
Were more fun to be with.

# TAURUS

APRIL 22 TO MAY 21

Your nature is self-reliant, and determined, and you will work and wait a long time for your plans and hopes to materialize. You have a genial personality with a witty, winning manner that makes you liked by everyone. You can be headstrong and unyielding when you are really angered. This stubbornness guided into a spirit of determination will carry you to your goal in life. You like to cling to old customs and associations for it is difficult for you to change your mind about people. You should try to overcome this by cultivating an interest in advanced ideas. You are inclined to be secretive but are a faithful friend and excellent company.

You are likely to slide through life very easily. You are not original, but have the ability to earn money for others, and you are particularly trustworthy and persevering. You are successful in work requiring constructive, executive ability and your way is to choose one line of work and stick to it. You are fond of admiration and praise, and they spur you on to do things others would consider impossible.

Your magnetic personality can attract much happiness in love and marriage, and your best partner will be from the signs of Scorpio, Virgo or Libra. You are inclined to be friendly with everyone and very demonstrative in love, but you must guard against jealousy. You are impetuous . . . a confirmed romantic . . . and apt to make a hasty marriage. You enjoy domestic surroundings, rather than outside recreations, making an excellent partner. Your love and heart interests are always taken seriously, and success will come through your emotional nature.

You have a strong constitution but once sickness is contracted convalescence is apt to be slow. This is partly caused by allowing yourself to become gloomy. You should refuse to worry, and avoid indulging your appetite too much, particularly as regards a "sweet tooth". Moderation in all things is all that is necessary for you to enjoy good health.

Indications point to a number of annoyances, mostly caused through personal enmity. 1946 will be a progressive year for you, for financially you may assume more responsibility in new work. You may be inclined to be restless or dissatisfied . . . and a new hobby will help you greatly. Probably around June and July you will experience a lucky period financially, with increased earnings. Your social life will be active this year, with July and August particularly interesting.

When you consider your solicitude regarding the possibility of scratches on your furniture or tarnish on your silverware, is it not amazing with what general indifference your rugs and carpets are treated. Consider the daily wear and tear of broom and vacuum cleaner, the dirt trampled underfoot and the moving of heavy furniture—what other household article is called upon to stand such treatment?

The secret of prolonging the life of rugs and carpets is to keep them clean, for imbedded grit and dirt will cut the fibres of the finest rug, by pressure of the constant tread.

1. Do not use your vacuum cleaner too often while your carpet is new, for the suction is powerful enough to loosen the pile of a new carpet, until it has been thoroughly set under traffic of the first few months.
2. Do not sweep your carpet with a broom too vigorously, and always sweep with the lay of the pile and not against it.
3. Do not shake small rugs, for this will loosen the hem or fringe at the end of the rug. The vacuum cleaner or carpet sweeper will clean it sufficiently, or else they may be thoroughly beaten with a carpet beater.
4. Always equip the legs of heavy furniture with glass gliders to keep them from cutting down the pile of the rug.
5. Reverse your rug occasionally, or else re-arrange your furniture to prevent too much traffic on one part of your rug.
6. Always buy stair carpets about one-half yard too long, so that it may be re-laid with the worn part from the tread of the stairs shifted to the risers. Lay stair carpets with the pile running downwards.

**G.W.G. GARMENTS**

SHOW LOWEST COST PER MONTH OF SERVICE

## THE CARE OF RUGS AND CARPETS—CONTINUED

7. Humidifiers prolong the life of a carpet, for they keep the fibres from becoming dry and brittle.
8. To shampoo your rugs use a good neutral soap, and do not use either washing soda or ammonia. If you have to soften the water to make a soap solution use borax. Use a good brush and do not wet the brush enough to wet the carpet, for the shampoo should be done with the lather only, and very promptly mopped up, so that the carpet may dry quickly before the moisture goes through to the back.
9. Remove stains as soon as possible, for nearly every stain contains some chemical, which may change the color. Foreign matter may produce flat spots which will disfigure the rug and commence wear.

## REMOVAL OF STAINS

**ANIMAL STAINS**—Treat while still wet for there is little hope of removing them when they have dried. A thorough saturation with clear cold water is the best remedy.

**BEER, COCKTAIL STAINS, WINES**—Clean immediately with luke warm water and pure soap chips. Soak up soap with damp cloth and brush pile upright.

**BUTTER**—A solvent, such as Ether, Gasoline, Carbon Tetrachloride.

**CHEWING GUM**—Soften the gum with egg white, then sponge with water.

**CHOCOLATE**—Scrape with a dull knife and sponge with damp cloth.

**COFFEE AND TEA**—Luke warm water is usually sufficient, but if a grease spot remains from the cream, remove with Tetrachloride, Gasoline or Ether.

**FOODSTUFFS**—Carbon Tetra Chloride and Benzol, or other grease solvents are very good.

**GLUE**—If it has become thoroughly dry, sponge with white vinegar and dry with blotting paper.

**GREASE, OILS AND FATS** (Soup, milk, cream, etc.) Rub moist Cream of Tartar into the stain, and remove with vacuum cleaner when dry, or sponge with alcohol.

**INK**—Treat with Fuller's Earth, Talc Powder or salt to remove any ink not absorbed by rug, then apply Fuller's Earth and Water and work a blunt instrument, renewing the application when it becomes soiled. Another effective method is to pour vegetable oil on the spot and let it stand 5 to 10 minutes, then wash out with sponge dipped in luke warm water.

**MUD**—Allow to dry thoroughly, then brush carefully. If any stain remains, rub with cut raw potato.

**PAINT**—Remove with turpentine while fresh.

 And wears an Emerald all her life  
 Shall be a lov'd and happy wife.

# Making Over Service Uniforms

## PREPARATION FOR DYEING

As your uniform cannot be worn in its original color, it is necessary to have it dyed. The practical colors to use are black, navy or cocoa brown. Before being dyed, strip the garment of badges, buttons, epaulettes and outside pockets. Since the garment may shrink slightly, you will be wise to take the hem down and do it up again after the dyeing has been accomplished.

## GREATCOAT

The cloth is too heavy for the home sewer, but these coats look attractive just as they are—with new buttons to match the new color—and perhaps a fur collar.

## SUMMER UNIFORMS

Can be worn as they are, or dyed a gay new color. The material lends itself nicely to dressmaker suits or afternoon dresses—and a commercial pattern can be purchased to give the new style.

# CONVERTED C.W.A.C. UNIFORM

## GABARDINE UNIFORMS

The skirt lends itself to becoming a straight skirt, with one pleat . . . and the tunic, if it fits properly after dyeing, can be worn in its present style—with the addition of bright buttons—small pockets instead of the large ones—and perhaps a monogram on a small breast pocket. With the addition of a ruffled blouse, the costume becomes feminine and highly useful.

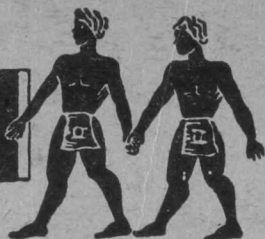

If the tunic is too tight after dyeing . . . a vestee may be worked into the garment, as in the illustration on the adjoining page. Plaid flannel . . . or contrasting apline cloth—such as gold or turquoise with brown—powder blue with navy—leaf green with black . . . make smart combinations.

# GEMINI

**MAY 22 TO JUNE 21**

You are sensitive and idealistic, kind-hearted and affectionate. You possess splendid mental powers, and are fond of scientific knowledge. You are apt to speak without thinking and suffer deep regret later. You are inclined to go from one thing to another . . . and if you do not discipline your desire for change and versatility, you may drift into confusion. You are at your best when interested in news, ideas, or trips, and you have tremendous artistic possibilities. You must adapt yourself to existing circumstances . . . yet search for your true line of work.

Your greatest promise of financial success is in connection with public contacts. Property and domestic affairs will prove the major source of expense and financial concern. You have the utmost diplomacy and an inventive turn of mind—use it. If you are entering into a partnership, be sure the terms are thoroughly understood and agreed upon, for you must guard your reputation.

You are socially inclined and your best companions are people with calm, thoughtful natures, who will help you control your own restlessness. In romance and emotional matters you are highly attractive, and much happiness can be realized in love and domestic affairs. You are inclined to fall in love with an older person. You are warned against sudden marital attachments for you are too quick to jump in and out of romance. You are apt to experience real problems and heartaches, but patience and tact will do much to alleviate these matters. Your best marriage partner will be from the signs of Sagittarius, Leo or Aries.

Your health is not particularly robust and because of your restlessness, you are inclined to nervous troubles. You need plenty of mental recreation and sleep. Good health can be built and maintained through forethought and regular care.

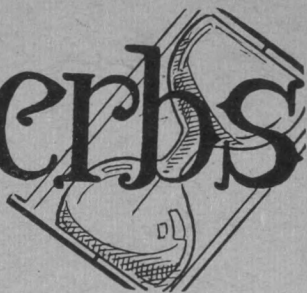

You will have a change of outlook this year, also perhaps a change of job and location. You will have to work hard and there will be heavy demands on you, but you will be rewarded for your efforts. You have but to get started on the right line to insure success. This year luck is definitely on your side.

## *the clever* **HOSTESS**

What is the first thing that comes to your mind when you hear the word "entertaining"? Hard work? Lots of preparation? Expense? Formality? Entertaining should not hold any of these dire meanings because in its original sense it meant to hold or to keep among. So let's take its modern meaning to be simply holding your friends and keeping yourself among them! Could any definition be simpler or lovelier?

And when we speak of easy entertaining, we mean just that—entertaining with ease, no strain, no flurry, no overwork, and the hostess enjoying her own party as much as her guests. Every time you entertain, whether it's a next-door neighbor, dropping in for "a cup of tea," the bridge club for a spring luncheon, or that once-in-a-long-time event of a wedding right in the family, you should be so relaxed, so thoroughly enjoying yourself that no stranger could tell whether you are guest or hostess.

Now, the secret of easy entertaining is preparation, starting with what should be called arm-chair preparation. That is, your first step should be to sit down and think out the party, dinner, tea or whatever the occasion is. Admit honestly and accept cheerfully the limitations of your pocketbook and your equipment, your time and your strength, and do not plan more than can be carried out comfortably and sensibly. Remember that a cup of tea and a slice of bread can make a party, if the tea is well made and the bread entrancingly thin!

Next, plan your menu, your decorations and other features of the occasion, and make out a complete shopping list. Prepare the meal or refreshments as much in advance as possible, and that means a long way, these days. It is amazing the way the modern hostess produces luscious food on a few minutes' notice.

Entertain often,  
Plan with care,  
And have the best time  
Of anyone there!

# All the World Sings These

## THE MAPLE LEAF FOREVER

In days of yore, from Britain's shore,  
Wolfe the dauntless hero came,  
And planted firm Britannia's flag  
On Canada's fair domain,  
Here may it wave, our boast and  
pride,

And join in love together,  
The Thistle, Shamrock, Rose entwine,  
The Maple Leaf forever.

### Chorus

The Maple Leaf our emblem dear,  
The Maple Leaf forever,  
God save our King and heaven bless  
The Maple Leaf forever.

## LOVE'S OLD SWEET SONG

Once in the dear dead days beyond  
recall  
When on the world the mists began  
to fall,

Out of the dreams that rose in happy  
throng,

Low to our hearts love sang an old  
sweet song;

And in the dusk where fell the fire-  
light gleam,

Softly it wove itself into our dream.

### Refrain

Just a song at twilight, when the  
lights are low,

And the flickering shadows softly  
come and go.

Though our hearts be weary, sad the  
day and long,

Still to us at twilight comes love's  
old song,

Comes love's old sweet song.

## OLD BLACK JOE

Gone are the days when my heart was  
young and gay,

Gone are my friends from the cotton  
fields away;

Gone from the earth to a better land  
I know,

I hear their gentle voices calling, "Old  
Black Joe!"

### Chorus

I'm coming, I'm coming, for my head  
is bending low;

I hear their gentle voices calling, "Old  
Black Joe!"

2

Where are the hearts once so happy  
and so free?

The children so dear that I held upon  
my knee?

Gone to the shore where my soul has  
longed to go,

I hear their gentle voices calling, "Old  
Black Joe!"

## THE BARREL POLKA

There's a garden, what a garden,  
Only happy faces bloom there  
And there's never any room there  
For a worry or a gloom there;  
Oh! There's music and there's  
dancing  
And a lot of sweet romancing  
When they play a polka  
They all get in the swing;  
Ev'ry time they hear that oompa pa  
Ev'rybody feels so tra la la  
They want to throw their cares away,  
They all go lah de ah de ay;  
Then they hear a rumble on the floor,  
It's the big surprise they're waitin' for  
And all the couples form a ring  
For miles around you'll hear them  
sing:

### Chorus

Roll out the barrel,  
We'll have a barrel of fun:  
Roll out the barrel,  
We've got the blues on the run.  
Zing! Boom! Tararrel,  
Ring out a song of good cheer,  
Now's the time to roll out the barrel,  
For the gang's all here.

## GOOD NIGHT, SWEETHEART

Good night sweetheart, 'till we meet  
tomorrow;  
Good night sweetheart, sleep will  
banish sorrow;  
Tears and parting make us forlorn,  
But with the dawn a new day is born  
(so I'll say)  
Good night sweetheart, tho' I'm not  
beside you,  
Good night sweetheart, still my love  
will guide you;  
Dreams enfold you, in each one I'll  
hold you;  
Good night sweetheart, good night.

## HAPPY DAYS ARE HERE AGAIN

'Cause happy days are here again,  
The skies above are clear again—  
Let us sing a song of cheer again—  
Happy days are here again!  
All together shout it now!  
There's no one who can doubt it  
now—  
So let's tell the world about it now—  
Happy days are here again!  
Your cares and troubles are gone;  
There'll be no more from now on.  
Happy days are here again;  
The skies above are clear again;  
Let us sing a song of cheer again—  
Happy days are here again!

## AFTER THE BALL IS OVER

After the ball is over,  
After the break of morn,  
After the dancers are leaving,  
After the stars are gone.  
Many a heart is aching,  
If you could read them all,  
Many the hopes that have vanished  
After the ball.

## SHINE ON HARVEST MOON

Oh, shine on, shine on harvest moon  
up in the sky,  
I ain't had no lovin' since April,  
January, June or July.  
Snow time ain't no time to stay out-  
doors and spoon,  
So shine on, shine on, harvest moon,  
For me and my gal.

## MY WILD IRISH ROSE

My wild Irish Rose,  
The sweetest flower that grows,  
You may search everywhere,  
But none can compare  
With my wild Irish Rose.  
My wild Irish Rose,  
The dearest flower that grows,  
And some day for my sake  
She may let me take  
The bloom from my wild Irish Rose.

# CANCER

JUNE 22 TO JULY 23

You have a very unusual nature—versatile and brilliant. You have a great amount of ambition and loyalty, and these characteristics, together with your remarkable memory promise you success if you apply your talents towards worth-while activities. You are extremely sensitive and self-protective, crawling into a shell periodically. This is apt to make people think you are rather indifferent and cold, until they get to know you. You are affectionate and sociable, but inclined to be hurt easily. You should try to overcome this trait, for it can cause you unhappiness. You prefer to look backward rather than forward and are reluctant to adopt new ideas and methods—this is apt to retard your progress and you must strive to overcome it.

Your financial well-being is particularly favorable, for you have the ability to accumulate wealth. By turning your vivid imagination to objective matters you can do great creative things. You have a tendency to worry over past mistakes—you should live for the present and future, and let the past be gone. Your great persistence and industry help you greatly in making a success of yourself. Your latter years will be more prosperous and happy than your earlier ones.

Romance looms large in your life, and you are affectionate and demonstrative with people you know and like . . . but you are afraid of being hurt, and are apt to appear unapproachable to people who don't know you. You find criticism hard to endure and are sometimes unhappy because you feel people don't understand your deep need of sympathy. You should be on guard against impulsive decisions about marriage for the happiest marriages under this sign are undertaken in later life. The most constant and best life mate for you will be found under the signs of Pisces, Capricorn and Scorpio.

Your constitution is not overly strong, and your health should be carefully protected, especially against over-indulgence of any kind. Your constitution will improve as you mature and the general promise of long life is very good. Many of your troubles in health are brought on by worry and melancholy, and the cure for this is a healthy imagination and freedom from worry.

There will be far-reaching changes affecting your career this year. You may be rather concerned at first, but with careful work you will find the changes very much in your favor. Your versatile nature may make it hard for you to stay in one place . . . but you must try to take things as they come, for you will have many unusual experiences. This year you are liable to realize a long standing desire in romance that will bring you much joy. New friends are indicated too, especially if you make more effort to be friendly.

**JULY 24 TO AUGUST 23**

You are a romantic and imaginative person, with a warm hearted approach to the world. You have a sense of your own integrity, and a drive that is likely to land you where you want to be. You must not let yourself grieve over temporary setbacks. You are a trifle vain of your dress and your ambitions. Under your aggressive nature you have a streak of timidity. Your elastic nature makes you adaptable to changing conditions, and new adventures, and out-of-the-ordinary experiences appeal to you greatly. Realization of success and achievement helps to give you charm, confidence and happiness more than anything else.

You are capable of achieving wide recognition for your talents, for it is easy for you to catch the public imagination . . . and although you aren't too fond of hard work, you seem able to make money easily. Your popularity and generosity help you to get quickly promoted. You don't like exerting too much physical energy, and are most successful in work of a mental nature. Your danger lies in extravagance, reckless spending and impulsive judgments although your good taste and charm will help you counteract these. An interesting hobby will also help.

Your ability to arouse love and feeling in others is exceptionally strong. You have an ardent nature and make many very good friends . . . sometimes surprising them with the amount of common sense you bring to bear on matters of affection. You seek pleasure and excitement in your life, but are apt to become jealously possessive towards those you love. You are inclined to show great coldness when hurt or disappointed, and to suffer intensely yourself. The indications are that you will marry well from a worldly point of view. You should be careful to select someone on an equal plane Intellectually with ideas and opinions similar to your own and you are most likely to achieve happiness with one born under the sign of Aquarius, although you will harmonize well with those born in Aries and Libra.

Your emotional outlook affects your health, and when you are happy your vitality rises and your health is good. You have a strong constitution, but require plenty of sunlight and recreation. A sensible diet will help you to enjoy perfect health. One serious illness or accident is indicated for you, but your abundance of vitality helps you make a startling recovery.

Your financial outlook this year is good, and you will have a genuine opportunity for gain, but at times you will be impatient and inclined to fly off the handle. You must sidetrack these traits for your earnings will be in collaboration with others, and you will need their co-operation. This is the time to take stock of yourself and decide which habits, hopes and attachments are worth keeping, for you will build your future progress on this foundation. Strive to develop your talents for you are particularly favored . . . and next year can carry you far. Emotionally you may be torn between two desires, and you will need all your diplomacy to avoid breaks.

Milk will not scorch so easily, if the sauce pan in which it is to be heated is first rinsed out with cold water.

Always wet egg shells before placing the eggs in water to boil, to prevent cracking. Add a little salt to the water when boiling.

To pit cherries, use a steel pen point with the tip end stuck into a pen holder.

If soup or stew is too salty, add slices of raw potatoes. Boil a few minutes, remove potato slices. Repeat until soup or stew returns to normal.

Beef, when roasting, will not scorch easily if a dish of water is placed in the oven with it.

Sausages will not split during frying, if they are first boiled for five minutes. Drain thoroughly and fry as usual.

Adding a little lemon juice to water in which rice is to be cooked will make it whiter.

Rub the outside skin of potatoes, before baking them, with a little grease or vegetable oil. It will give them a better appearance.

When using an uncooked frosting, frost the cake while still warm. For cooked frostings, the cake should be thoroughly cool.

# VIRGO

**AUGUST 24 TO SEPTEMBER 23**

Mental activity is the keynote of your nature, and you have great intellectual power. You have the ability to make good in the business world. You are a self-sufficient person, dominated by intellectual interests, and would rather spend an evening at home with a book than go out just "to be on the go". You have great charm but are apt to minimize it. You are a good friend . . . you never betray a confidence or trust . . . although your mind is critical and analytical. You are fastidious in dress and fond of luxury in all for ns, which makes it difficult for you to save. You place value on worldly possessions, but you must cultivate personality as well for success and happiness.

You are apt to experience many fears concerning your personal security in life, but you have excellent promise of financial good fortune. Your success will come through your mer al soundness and devotion to duty, not by leaps and bounds. Your analytical mind, properly trained, and your ability to impart knowledge will be the keynotes of your success. Don't allow your critical tendency to grow into a fault-finding nature.

You are naçpiest when affection is lavished on you, yet your fear of disappointment keeps you from expressing your inner feelings and devotion. You should encourage social contacts and endeavor to develop your nature to attract these to you. Your great self-sufficiency may keep you from marrying, although it won't be from lack of opportunity. You might be wise to marry young, if you wish to marry, for you get set in your ways and will not wish to change them. You will harmonize best with one born under Pisces, Aries and Taurus. You will marry as much for intellectual affinity as anything else, for you let your head rule your heart.

Your vitality and constitution are good and your health depends largely upon your own will power. You are a great medicine taker, and should realize that most of your illness comes at times when you are discouraged or fearful. An optimistic, cheerful outlook on life will do you far more good than medicine.

This year will call for consistent effort, and you may feel discouraged, but it can be a progressive year financially. Carry your day dreams into practical and profitable realities . . . and try to use your charm to make more social contacts, which will help you both financially and in your home life. You may experience extraordinary changes, but these will lead to opportunity for a better position in life for you. Cultivate your sense of humor to keep from letting troubles bother you.

# GARDENING

## THE ROOT CROP

consists of beets, parsnips, turnips and carrots. Beets and carrots can be canned while turnips and parsnips are stored. In the raising of these vegetables the following rules should be followed:

1. Sow seeds thinly
2. One inch of soil covering the seed
3. Thin seedlings as soon as possible
4. Use thinnings for pot greens
5. Cultivate soil between rows regularly
6. Use tops of beets for greens

## PEAS

1. Cover peas with only two inches of dirt
2. Have rows 3 to 4 inches apart
3. Hoe peas frequently
4. Brush supports for your peas

## ONIONS

1. Onions need a rich soil
2. Keep weeds from onion patch
3. Sow onions shallow about 3 inches apart
4. Sets can be re-planted every 10 days

## CUCUMBERS

1. Cucumbers want sandy soil
2. Grow on ground
3. Sow seeds in hills 4 to 5 feet apart

**G.W.G. RED STRAP OVERALLS**  
MADE FROM 'FAMOUS SNOBACK' DENIM

## GARDENING—CONTINUED

4. Sow 8 to 10 seeds in a hill
5. Keep fruit picked
6. Keep the hill well hoed
7. Cover plants with screening

### POTATOES

1. Plenty of space for more success
2. Plants 6" deep, 3½' apart
3. Place seed eyes up
4. Guard against potato bugs by spraying
5. Keep well weeded and hoed

### LETTUCE

1. Sow in shallow drills 1' apart
2. Cut leaves off and a new crop will appear

### TOMATOES

1. Plant 3' apart
2. Fill hole with water before setting plant
3. Keep plants trimmed to one main root

### SWEET CORN

1. Sow seeds in manured hills, 3 to 4 feet apart
2. Drop 8 seeds in each hole
3. Thin out to 3 strongest seeds
4. Fertilizer will help corn
5. Hoe corn once a week
6. You can plant pumpkins or squash between the hills

### THE CABBAGE FAMILY

consists of cauliflower, cabbage, brussel sprouts, and broccoli. Cabbage is the only one that can be stored for winter use. A few helpful hints in growing these are listed below:

1. Lime is essential. Work it into soil
2. Spray against insects
3. Brussel sprouts best after frost

Lima beans, pole beans and wax beans will grow in any soil.

1. Never pick beans when foliage is wet
2. Make frame for beans to climb on
3. Tie beans to stake

October's child is born for woe

But lay an opal on her breast,  
And hope will lull those woes to rest.

Birthstone ..... Opal

### SYMBOL OF HOPE AND PURITY

The luckiest of gems, for the person born in October. Its beauty lies in the myriad of flashing colours. Black opals are rare, and were not discovered until 1903, in Australia. Opals should be protected by a thin film of oil, if put away for any length of time.

CONTAIN MORE MILES OF TIGHTLY TWISTED COTTON  
YARNS THAN OTHER OVERALLS

It is a wise precaution to place a turkish towel in the bottom of your dish pan, when washing special glassware and fine china.

Starch added to the dish water will give extra gloss to china and glassware.

Always fill cooking utensils with soapy water as soon as they have been emptied. Hot water for those that held vegetables, greasy foods, or syrupy mixtures. Cold water for containers of flour mixtures, eggy substances, milk or cream.

To remove egg stains from silver, table salt is recommended. For stubborn cases, add a little amonnia to the dish water.

Tea stains on china can be eradicated by rubbing gently with salt and cooking soda.

To remove burned food remnants from enamelware, add one tablespoonful of washing soda to each quart of water. Boil for fifteen minutes, and you will generally find that the burned food can be scraped out with a wooden spoon.

A little vinegar placed in the hot frying pan, after frying onions or fish, will remove the odor.

To scour knives that have discolored . . . rub the moistened end of a cork first in your scouring powder—then over the surface to be cleaned. No cut or dirty fingers this way.

# Characteristics of Handwriting

A heavy style of writing—one in which the whole letter tends to be thick—is usually indicative of love of beauty, sensuousness and the literary mind. Imagination, too, is indicated by this heavy line.

Endings of words are important. Finals show certain characteristics—although all readings must take into consideration the general appearance of the writing.

When finals are less pronounced, stopping soon after turning up . . . it is a sign of economy.

When finals are long, raised well up and rounded . . . it is a sign of generosity, and love of order.

Finals that rise sharply, in an angular line, are indicative of quickness of temper.

No finals at all may indicate miserliness, unless it is outweighed by the general handwriting.

Flourishes beneath the signature almost invariably indicate love of admiration.

Handwriting that shows breaks between letters usually indicates the mind of a dreamer . . . with powers of penetration and rapid judgment.

Handwriting that runs words connected to each other generally shows rapidity of thought and sequence of ideas.

Vertical, upright and hard handwriting may be considered a sign of self-contained, self-sufficient and self-confident individuality.

Selfishness is indicated by an angular, upright style . . . with short and angular endings.

Sloping letters denote sensitive and affectionate dispositions. Curved

**G.W.G. COMBINATION OVERALLS**

EASY ON . . . EASY OFF

## CHARACTERISTICS OF HANDWRITING— CONTINUED

letters show gentleness and tenderness . . . while those that are hard and angular indicate lack of sentiment and romance.

An important note in the crossing of the letter "T".

A plain, strong bar to the letter indicates a considerable degree of resoluteness and will-power.

If the crossing is made high and ascending, it denotes a quick imperious temperament, allied with strong will.

If the bar be high above the "T"—long and curved—it shows will, but without persistence . . . better termed as wilfulness.

When the "T" bar is very firm, but with a tendency to descend, and is short and thick . . . this indicates a persistency of ideas with a very firm will-power. Placed high on the letter, it denotes an imperiousness of judgment and despotism of power.

The absence of the bar to the "T" is a sign of weakness of will.

Handwriting that tends to alter in size . . . with letters irregular, but running together . . . indicates imagination.

Persons of active disposition usually write a fairly regular hand, medium thick line, strokes upright . . . with a tendency for the signature to rise along its length.

Ambition is noted in the constant rise of the whole signature.

Courage is marked by a rising slope to lines of writing across the page, with letters of will and energy.

An enthusiastic person generally writes with dash and fire, ascending line, flowing easy capitals, well-barred "T" and letters somewhat irregular and sloped.

Impulsive persons have a free and easy handwriting . . . somewhat angular . . . with large capitals. Downstrokes of h, g, l and y show a tendency to elongation.

Melancholy persons usually show none of the characteristics of ambition or energy . . . and the line of writing slopes downward. The writing is more rounded . . . somewhat pathetic.

# LIBRA

SEPTEMBER 24 TO OCTOBER 23

You have a very keen sense of perception . . . an even temper . . . and you are pleasant and courteous. The Peace Makers of the world are listed in the Libra group, for you are untiring in your efforts to establish peace and harmony. You are self-sufficient and capable of accepting circumstances and events with a quiet fortitude that is astonishing to others. One flaw in your nature is that you are apt to temporize and "delay until tomorrow", or hesitate to act. You have a tremendous strength of purpose and by striving to conquer your inclinations to "play for time" you can go far in life. You love attention, but aren't likely to be swept off your feet . . . and you realize that you must give attention in return.

You have exceptional executive ability, and can take the lead in advising others. Once your interest is aroused, you work hard at whatever you undertake. You are inclined to take on too much at one time . . . and you should realize that it is better to do one thing and do it well. You benefit greatly through dealing with people . . . for your personality and moral strength are an inspiration to others. You are likely to earn money in excess of your needs . . . but you must learn to save.

You are affectionate and sympathetic, and dependent upon companionship. For this reason you should choose your marital partner carefully. Those who love you will appreciate your esthetic, brilliant and charming disposition . . . but they must also understand your moodiness. Your most congenial marriage partners are under the signs of Aries, Sagittarius, Leo and Gemini. Even though you are attracted to one born under Pisces, you should never undertake marriage with this sign. You are likely to marry while young, and perhaps more than once. You are rather sensitive and inclined to day-dream . . . and are sometimes hurt by other peoples worldliness.

You are apt to overwork and impair your health as a result. Your fondness for pleasure and excitement sometimes causes slight disorders to your nervous system. Always endeavor to harmonize your activities . . . and with the proper forethought and care, you will enjoy growing health.

This year may not be a particularly lucky one for you . . . but you will gain through your own enterprise and initiative. Don't be too insistent that YOUR ideas are the only usable ones. Your career seems to depend on your home affairs too much . . . you must try not to let one interfere with the other. Endeavor to meet people, and make the most of your natural charm, and you will notice a marked change for the better in or around November. You have many new friends indicated for this year . . . and an active social life ahead for you. Your extravagance may cause you trouble, so hold back any tendency to be reckless. Try to get what you really want out of life and let unimportant things pass.

## G.W.G. TEXAS RANGER SHIRTS

DRESS-UP SHIRTS THAT WEAR LONG AND WELL

When putting a rod through the top hem of your curtains, cover the end of the rod with a finger cut from an old glove—to keep it from catching in the material.

Before inserting screws into plaster, coat the shanks with soap. They will then enter the wall more easily—and with less chance of breaking the surface.

Paper doilies are attractive for the bottom of your bird cage, and come in so many sizes that you are sure to find one to fit exactly.

When storing silver away, rub it with olive oil, and roll it in a piece of soft cloth. A quick sudsing will be all that it will require for instant use.

Before measuring molasses or corn syrup, grease the measuring cup or spoon—the heavy syrup will not stick.

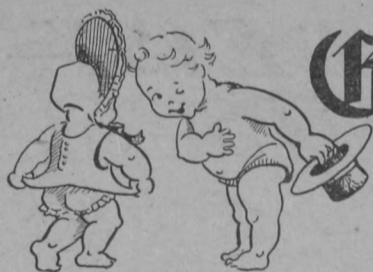

A wet knife will cut through meringue, without pulling or tearing.

When peeling apples, they will not become brown if placed immediately in a bowl of cold water, with a little salt added.

To keep lamps from smoking, put a teaspoon of common salt in an ordinary lamp. It gives a better light, too.

Oranges may be peeled more easily, if they are covered with boiling water and allowed to stand for five minutes. Chill before using.

# Etiquette

## In the Home . . .

One should always be properly dressed for a meal.

Do not read at table, if others are present.

Remain at the table until the meal is finished.

Make introductions before your guests are seated.

It is discourteous for guests to arrive late for a meal.

Take food and drink easily, quietly and deliberately . . . for haste is considered in bad taste.

In declining a course, do so simply—do not give tedious, detailed reasons . . . which may upset other diners.

Subjects of conversation should be light and cheerful . . . and listeners are just as popular as good conversationalists.

Avoid fidgeting or playing with articles on the table. Sit easily and relax.

If you make a blunder—spill wine, drop a fork or knife—take no notice. Another article will be supplied to you, and no one will pay any attention.

If hostess, do not press food upon your guests. Let them be judges of what they wish to eat.

You will never be embarrassed—if you remember to think of the pleasure of others, and forget yourself.

## GIRLS' COWBOY-KING OVERALLS

AS STURDY AS A MAN'S . . . BUT CLEVERLY CUT  
TO FIT PERFECTLY

# **In Public . . .**

## **WALKING**

If accompanied by a girl, allow her the inside of the sidewalk. Avoid staring, or looking around, at those you meet. Do not point at subjects of conversation. Carry an umbrella in a vertical position.

## **TALKING**

Do not raise your voice enough to draw attention to yourself or friends. Do not lower your voice as though you dreaded to be overheard. Talk in natural tones. At the theatre, talk only between acts or features.

## **EATING**

It is inexcusable to be seen eating as you walk or ride in public.

## **GREETING**

In greeting your friends in public, let it be done quietly. Do not gush or be over-familiar. Be careful about dropping in on business friends . . . they may not have time to waste, even though you are free.

## **FASHION**

Let your good taste override mere fashion. Be well-dressed—not over-dressed—and never untidily enough to be considered dowdy. Even most expensive clothes should be simple in design—with few frills and no gaudy accessories.

# In Correspondence . . .

In writing letters, above all things be brief about each subject. People today have no time to read long, rambling descriptions which evade the point. Think first of what you wish to say, then write it so that it is easily followed.

Always use good quality notepaper and envelopes. Avoid lavish display in color or ornamentation. The writer's monogram, crest or address may be engraved on the notepaper.

Do not allow a letter to remain unanswered. Invitations should be replied to at once . . . giving definite answer, with exact time you will arrive, if you accept.

In writing, do not air your knowledge of a foreign language or quotations from the classics. This could appear, if read by someone who does not understand such phrases, that you are 'showing off'.

Keep pages of your letter neatly numbered, so that the letter is easily followed. Let your writing be small and tidily spaced.

In writing to servicemen away from home, try to find little incidents concerning their old friends and family. Men away from home like to hear little anecdotes to remind them of former days. Keep your letters cheerful . . . and keep your small worries out of the lines.

## **G.W.G. PLAYSUITS**

COVERALLS, SANFORIZED-SHRUNK, AND IN SIZES THREE  
TO EIGHT YEARS.

# Courtship . . .

During the engagement, a well-bred person does not wear his or her heart upon the sleeve. Others cannot be expected to display excitement about your personal life.

For a person to pretend affection is contemptible. Be sincere at all times, in your dealings with others.

Although it is not always customary for a man to ask the parent's consent . . . it is still a courtesy to discuss the proposed engagement with the girl's father.

In the company of others, engaged persons should afford each other as much freedom as possible.

Little courtesies between a couple will help to promote the happiest married life . . . and such small considerations should be practiced early in the acquaintanceship.

Sharing small petty annoyances of each person's day only serves to make them seem more serious . . . while sharing pleasant incidents which happened while the couple were apart, will link the couple more closely together.

The income earned by the man should be shared equally. Although the woman's work is not on salary basis, her task is equally important—and should receive just recognition.

## G.W.G. TEXAS RANGER SHIRTS

ESPECIALLY DESIGNED FOR ACTIVE MEN . . . AND THEY  
FIT PERFECTLY.

1. Sort clothes according to soil, color, materials, stains.
2. Never stoop to a hamper. Raise it to your level, on a bench, chair or stool, to enable you to stand erect, and thus save your back.
3. Get rid of stains **before** washing.
4. If you use water softener, experiment until you find the exact amount you need to make a good lather. Besides saving pennies, this will also help your clothes, for too much softener yellows clothes and is hard on them.
5. When using softener, wait until scum forms and then skim it off before adding soap.
6. Soap is the mildest softener and safest for silks.
7. Be sure to use a good soap and suit the soap to your need, e.g. mild soap or flakes for silks, woolens, etc. and a stronger soap for badly soiled things.
8. Use a measuring cup and a ruler to find how much soap you need to make a two-inch standing suds, and then you'll know just how much you need next time. Make sure there is a 2-inch standing suds for each load.
9. Soak clothes only 15 minutes, for if they are soaked too long, they are apt to absorb the dirt from the water. Use cool or lukewarm water, for hot water will set some stains.

## **LAUNDRY—CONTINUED**

10. To keep your clothes white, wash them in hot water, preferably from 140 to 160° F.
11. Do not overwash for prolonged washing will drive the dirt back in your clothes. 5-15 minutes is enough for most machines.
12. For colored clothes use a mild softener, and wash in warm water as quickly as possible. Always hang all colored clothes in the shade.
13. Clothes well hung are half ironed, so wring clothes flat, hang them squarely, fold them evenly and sprinkle them smoothly. Fold flat things over the line and hang shirts and dresses upside down.
14. To bleach white clothes hang in the sun.
15. Make sure your ironing board is just the right height to save your back. It will help your feet to stand on a rubber mat while ironing.
16. Buy a good lightweight iron, for you will save energy every time you lift it.
17. For washing silks use a very mild soap, lukewarm water, and handle gently. Do not soak silks for they absorb water very readily and when the water becomes dirty they will absorb the dirt along with the water. For very soiled silks two short washings are better than one long washing.
19. Woollens. Use warm water with a mild soap and handle gently. Keep the rinse waters the same temperature as the the wash water. Wash very quickly for wool is lost in the water if it is left for too long. Use plenty of soap for wool destroys a certain amount of soap, therefore you need twice

as much as for cottons. Blankets may be safely washed in the machine if you only leave them in for from two to three minutes. If the bindings are still soiled rub them with a brush that is full of soap suds.

20. A new clothesline will give better service if boiled before using. Add a handful of salt to the water, to keep clothes from freezing to the line in cold weather.
21. Salt added to bluing water helps to keep clothes from being streaked.
22. Never wring any woolens—even blankets. Hang on line to drip . . . with an occasional beating as they dry, to keep them soft.
23. To keep woolens and flannels soft, add a teaspoonful of glycerine to each pint of rinsing water.
24. Lace should never be rubbed. Squeeze gently in warm suds. It should be ironed on a well-padded board, with a piece of tissue paper laid over it.
25. An easy way to sprinkle clothes in summer is to turn the fine spray of the garden hose on them, while they are still on the line.
26. Never wring gloves. When they have been gently squeezed, roll them in a towel to remove excess moisture. Blow into gloves before laying them out flat to dry. Never dry them near heat, or in the sun.
27. If the clothesline is dirty, don't throw it out. Wrap it around your washboard, and allow it to soak in hot suds. If very dirty, give a final scrubbing with a brush.

# SCORPIO

OCTOBER 24 TO NOVEMBER 22

Your nature is commanding, forceful and stubborn. Because of your tremendous energy and ambition, you find it hard to live an ordinary life. Your judgment is keen and shrewd, giving you an instinct for the right thing, and enabling you to see through people readily. By striving to develop your splendid characteristics for the right purpose, and by keeping your feet on the ground, your grandeur of thought will aid you to remarkable material success. You are inclined to have a liberal dose of superstition. You are usually too concerned with your own affairs to be curious about your neighbors.

Education has a great bearing on your personal achievement. You can be successful in many occupations because of your good judgment, which is fair and impartial. You won't shirk risk or danger in accomplishing what you want to . . . in fact, daring and difficult projects intrigue you. Time and energy mean nothing to you when you are attacking something difficult . . . but once you have succeeded, the thrill and interest gone, you look for something new. By pinning your aspirations down to earth, you can go far in life.

You are fiery and changeable with a passionate nature that is apt to be demanding. Your magnetic personality brings you many friends, but while they are very necessary to you, you don't find it easy to forgive a slight. You like to feel you rule the roost, and you generally do. Friends and relatives tend to interfere with your domestic life, but you do not like advice or sympathy in domestic matters and are apt to be resentful of it. You can attract great love and romance in your life if you strive to avoid misunderstandings and friction. Best marriage partner under sign of Cancer, Pisces, Virgo or Capricorn.

Because of the natural force of your nature, and your disregard for danger, you are inclined to be subject to accidents, and therefore you should take great care. You are rather susceptible to epidemics, but you usually make a quick come-back from any illness.

You will have a genuine opportunity for financial gain this year. You may be vaguely restless and dissatisfied the first part of 1946 . . . but the latter part of the year will bring influences, to help you make whatever changes you wish. Reverses may bother you at the time . . . but they will make you a more self-reliant and capable person. Your magnetic charm and poise will bring you happiness in love affairs this year—love affairs which will be glamorous and romantic—but you must strive to be more diplomatic, refusing to grow angry or jealous.

# Conservation Tips

A cracked egg can still be boiled, if you rub the cracked spot with moistened salt before placing the egg into boiling water.

Small rugs may be kept from slipping on polished floors, by sewing pieces of rubber to all four corners. Old rubber rings from preserve jars may be used for this purpose.

To remove shine from dresses, sponge them on the wrong side with a mild borax-and-water solution.

To keep patent leather accessories from drying and cracking, rub them occasionally with a glycerine-dipped cloth.

For scratches on dark furniture, touch them lightly with iodine. When dry, use a good furniture polish over the entire area.

Place small bags of camphor inside your piano to keep it free of moths.

Stale buns can be delicious, if you place them in a kettle with a lid—and place in the oven. They will not dry out and will appear as if freshly baked.

To mend broken crockery, mix white of egg with prepared lime. Apply quickly to the edges and hold firmly until the mixture sets.

To preserve left-over house paint in good condition, replace the lid on the paint carefully, press it down firmly, then pour a little melted paraffin around the opening.

## MAKE YOUR CLOTHES LAST LONGER

1. Hang your clothes up after use.
2. Don't jam everything into a little closet.
3. Mend clothes when needed.
4. Keep your hats in a hat box to prevent crushing and dirt.
5. Clean and brush out your handbag at least once a week.
6. Keep gloves in a box. Wash white ones after each wearing.
7. When washing stockings, wash in a mild soapy water.
8. Never twist or pull socks.
9. When ironing, see that temperature of iron is correct. Moderately warm for rayon and silks, hotter for cottons.
10. A tablespoon of salt in the suds for handkerchiefs will disinfect, whiten them.

## CONSERVATION TIPS—CONTINUED

Do not press chenille or tufted spreads. Shake them well, and brush them to restore fluffiness.

Treatment for curled corners or edges of rugs: Place a thick newspaper under the corner and soak rug with clear, cold water. Place heavy weight on edge until rug has dried.

Nine ways to avoid shrinking garments:

Don't wash garments in too-warm water.

Don't soak them.

Don't wash them with strong soap.

Don't rub them with cake soap.

Don't leave them in the water too long.

Don't stretch them by wringing and twisting water out.

Don't hang them up too wet.

Don't leave them rolled up in a towel.

Don't iron them too damp, or with too hot an iron.

Authorities say that BORAX is the safest water softener. It will not harm wool, rayon or delicate fabrics.

Lady of the Lake

LEARN THE CALLS . . . and you can follow any steps, as the caller gives them. In square dancing, you must always LISTEN FOR THE CALLS!

The lady is always at the RIGHT of the man who is her partner.

A set consists of four couples facing the centre of a square. Each should be close enough to the other to join hands without stretching. Each person has a definite place, and that place is the one to which each **MUST ALWAYS RETURN.**

## THE CALLS:

**SALUTE**

**OR HONOR**

**OR ADDRESS**

To bow.

**BALANCE**

Both point right toe and then left toe.

## SQUARE DANCING—CONTINUED

### TURN WITH THE RIGHT HAND

Holding right hands, circle around each other once, back to place.

### TURN WITH THE LEFT HAND

Holding left hands, circle around each other once, back to place.

### ALLEMANDE LEFT

This is "turn with the left hand"—done with your corner partner.

### DO SI DO

Face the person to whom the call is directed (partner or corner). Both walk forward—brush right shoulders together—brush past each other back to back, by stepping over to the right. Then brush left shoulders by walking backward to place.

### PROMENADE

Each person puts an arm behind the other. Both walk around the circle TO THE RIGHT, back to places.

### SWING

Take the couple-dance or waltz position. Stand side to side, facing in opposite directions, and with the outsides of the right feet touching. Now, push off with the left foot. You really run around after each other, while holding the regular dance position. Be sure to pick up the right foot every time, so that the pivot point will be between the two of you. Keep the feet as near the pivot point as possible, and the upper body out a bit.

### RIGHT AND LEFT

Two couples who face each other walk forward. Each lady passes between the opposite lady and man, and goes directly to the place where the opposite lady stood, while her partner walks by on the outside. The man then takes his partner's hand and backs around into the place where the opposite man was originally standing. The lady turns with him, so that both are in the opposite couple's original position. Each couple has now done a HALF RIGHT AND LEFT, and the change must be completed by going through the same steps, back to original places.

### RIGHT AND LEFT EIGHT

This is the same as RIGHT AND LEFT, except that it is done by two groups at the same time, side by side.

## SQUARE DANCING—CONTINUED

### LADIES CHAIN

Two couples face each other. The two ladies walk forward to the centre, take right hands and walk past each other. Both take their opposite man's left hand, and walk around him. Then, both ladies advance to the centre, and the movement is repeated with their own partners to complete the chain. The men turn in their own places.

### LADIES GRAND CHAIN

This is the same as Ladies Chain, except that four ladies advance to the centre, cross right hands and go around—give left hand to the opposite man—go around him. Ladies cross right hands again—left hand to partner and around him.

### MENS GRAND CHAIN

This is the same as "ladies grand chain"—except that four men advance to centre. When each takes the opposite lady's left hand to go around her, she stands still and holds his hand over her head, while he walks around her.

### GRAND RIGHT AND LEFT

Standing in the set, take your partner by the right hand, both walk by. All the ladies go in one direction, to the left—all the men go in the other direction, to the right. Take the next person by the left hand—next by the right—and so on, hand over hand, around the circle.

CIRCLE FOUR      Join hands and circle to the left.

### START WITH THE RIGHT

Starts out same as "ladies grand chain". Four advance to centre, take hold of opposite person's right hand and walk around once. Then reverse, with left hand, and walk around once.

### FORWARD AND BACK

Walk forward to centre, back to place.

# SAGITTARIUS

**NOVEMBER 23 TO DECEMBER 22**

You are a kind hearted person, with unconscious charm, and possess great insight into human character. You are a rather adventurous soul, and capable of extremes of happiness and despair. You are inclined to be abrupt and say what you think with a greater regard for directness than diplomacy. You have an idealistic strain to your nature and believe in what is right, but your lively sense of humor keeps you from being a prude. You are at your best when your enthusiasm is alive over some interest or person . . . and you can easily persuade other people to share your interests. If you lose your ideal, or your interest in something, all your ambitions fade and you are apt to be rather indolent.

Your outstanding quality is your ability to manage, promote and advance important ideas. You are inclined to change your vocation more than once. You must guide yourself to success, so learn to achieve while your ideals are firing your energy and enthusiasm. Don't be afraid to work in inferior positions, for success will come to you. An active interest in clubs, societies and fraternal organizations will help you greatly.

You are intense in your affections and apt to be misled by them, so don't form hasty attachments. You have the promise of much happiness, provided you do not marry on impulse. You are inclined to be fickle until you find your real love . . . and as a general rule will be happier with a partner born in Aries, Libra, Leo or Aquarius. Your sensitiveness makes you easily misunderstood, and a philosophical attitude will help you to keep from worrying or resenting things.

You have a strong constitution with great energy, and like to be busy all the time. This is apt to make you nervous and high-strung unless you are careful not to overtax your strength. Your happiness and rise in life will be determined by your health, so you should take great care of it. Outdoor recreations will help you to work off your surplus energy in a healthful manner.

1946 will prove a busy, successful year for you . . . particularly if you follow your own hunches. Your responsibility will be increased, but you must prove yourself worthy of it without becoming conceited. Try to keep your friendships on a conservative basis . . . for it will be a very busy year for you socially, with many different and interesting acquaintances. Be careful in travel this year, as there are indications of an accident.
